VIRGINIA
Harrisonburg – 3/10/2012
Vickie Davis, 540-564-5622

Volunteers teach Safety Day participants about reaction time and preventing accidental injury or death.

Eaton is Newest Sponsor Of Progressive Agriculture Safety Day® Program

Eaton's contribution will make the Safety Day Program possible for more rural youth.

"Based on the Progressive Agriculture Foundation's premise that every injury and death is preventable, safety and health day programs are a proactive approach to the prevention of injuries on farms and ranches," says Jeff Schick, Eaton's director, global market segment, agriculture, forestry and turf care. "Our sponsorship will allow over 400 additional rural youth to participate in a Safety Day experience that provides education and training to make farm, ranch and rural life safer. Also, the health and safety training related to noise, chemicals, equipment safe guards and personal protective equipment is applicable to future vocations in agriculture, manufacturing, mining, forestry and construction."

Eaton is a worldwide leader in the design, manufacturing and marketing of a comprehensive line of reliable, high-efficiency hydraulic systems and components for use in mobile and stationary applications. Mobile and stationary markets include agriculture, alternative energy, construction, forestry, manufacturing, material handling, mining, oil and gas, processing, transportation and utility equipment. Eaton's Hydraulics Group provides customer-driven solutions under product names like Aeroquip®, Boston®, Char-Lynn®, Eaton®, Hydrokraft®, Hydrowa®, Hydro-Line®, Integrated Hydraulics®, Synflex®, Vickers®, Walterscheid™ and Weatherhead®. For more information, visit **www.eaton.com/hydraulics**.

Eaton is a diversified power-management company with 2010 sales of $13.7 billion. It is a global technology leader in electrical components and systems for power quality, distribution and control; hydraulics components, systems and services for industrial and mobile equipment; aerospace fuel, hydraulics and pneumatic systems for commercial and military use; and truck and automotive drivetrain and powertrain systems for performance, fuel economy and safety. Eaton has approximately 73,000 employees and sells products to customers in more than 150 countries. For more information, visit **www.eaton.com.**

Visit our web site at **progressiveag.org** to see how you can host a Progressive Agriculture Safety Day® for your community during 2013. Or call us at 888-257-3529. Also, be sure to watch upcoming issues of *The Progressive Farmer* for more information and a list of additional Safety Days.
