MEM® series of wiring accessories

Cross-reference & price guide

Effective 1st April 2012

EATON

Powering Business Worldwide

MEM® series of wiring accessories – range portfolio

Product group	Range description	Discount code	Range being replaced
PREMERA	White moulded accessories including pattresses and ancillary items	A	INTRA / EMA
PREMERA mix	Modular switches, sockets, communication outlets. Modules will fit into PREMERA, COPA/FIX & XTRA plates	B	SPECTRA GRID
PREMERA proof	IP66 range of switches and enclosures	A	IP54 & IP56 GALA Weatherproof
COPA	Clip-on plate accessories, decorative plastic and luxury metal plate options	C	–
COPA fix	COPA style plate with fixed (non-removable) luxury metal cover plates	C	Aura Flush Metal
XTRA	Surface metalclad range for heavy duty applications	B	–
CIRCA	Ceiling accessories, lampholders, battenholders, low energy lamps, switches	A	–
LSC	Plug-in lighting system, 3 and 4 pin outlets, multi-outlet LDU units	B	–

New range implementation status

The new PREMERA, COPA fix ranges and additions/changes to the COPA/XTRA range will be implemented during 2012.

- The cross-reference guide shows the new part numbers and whether it replaces an existing item.
- The range items being discontinued will be phased out during the second half of 2012.
- Limited supply of replacement products will be held throughout 2012 and some key SPECTRA modules will continue to be available as after-market products.
- A full list of items being phased out is available on request.

Eaton's Electrical Sector is a global leader in power distribution, power quality, control and automation, and monitoring products. When combined with Eaton's full-scale engineering services, these products provide customer-driven PowerChain Management® solutions to serve the power system needs of the data center, industrial, institutional, public sector, utility, commercial, residential, IT, mission critical, alternative energy and OEM markets worldwide.

PowerChain Management solutions help enterprises achieve sustainable and competitive advantages through proactive management of the power system as a strategic, integrated asset throughout its life cycle, resulting in enhanced safety, greater reliability and energy efficiency. For more information, visit www.eaton.com/electrical.
