Eaton® Fire Rated Beverage Solutions

Fire Rated Synflex® Taste-Rite™ Hose

The industry leading beverage dispensing hose from Eaton, Taste-Rite™, is now available in a Code Compliant, 25/50 flame spread and smoke generation, version when tested in accordance with UL 723 / ASTM E-84.

The flushable PET lined Taste-Rite™ product is offered as a stocked item in a 3/8" ID size and is certified under NSF Standard 51.

The single line product is colored black for UV Protection and for blending into exposed overhead installations.

Test reports are available for various bundle configurations up to 16 lines.

In addition to the Taste-Rite™ Hose, Eaton offers insulated beverage bundles that use UL 723/ ASTM E-84 compliant tape and foam insulation.

Only the various components such as the hose insulation and tape will carry the UL 723/ ASTM E-84 rating. The bundle will not carry the UL 723/ ASTM E-84 rating.

These new bundles ensure protection in areas where flame spread and smoke densities are critical.

Features and Benefits

- All the benefits of Taste-Rite™ barrier performance with a flame rated design
- Superior surface contact smoothness
- Optimal resistance to carbon dioxide, nitrogen, oxygen, and mixed gas permeation
- Zero potential for flavor migration
- Minimized microbial growth potential
- Single line flexibility
- Ease of installation
