Eaton's Aeroquip® MatchMate® Global GH793 hose puts the pressure on Flextral with its Triple Crown Advantage.

Eaton's engineered technology improved the design of select Aeroquip hydraulic hoses which provide a distinct competitive advantage in three key areas.

1 Pressure
Improved working pressures to a higher performance level!

+

2 Temperature
Improved working temperatures to a higher performance level!

+

3 Abrasion Resistance
Better abrasion resistance with Aeroquip DURA-TUFF™ cover than traditional rubber covered hose

= Aeroquip Triple Crown Advantage

Indicates a product identified as an Aeroquip Triple Crown Advantage hose product.
For more information go to www.Eaton.com/TripleCrownAdvantage

Features and Benefits

- 2-Wire braided construction
- ***Exceeds*** EN853 Type 2SN performance
- ***Exceeds*** SAE100R2 AT Type S performance
- DURA-TUFF™ cover - more abrasion resistant than a traditional rubber covered hose.
- Temperature rating of -40˚C to +127˚C (-40˚F to +260˚F) – Highest rating in the market
- Compatible with all existing Aeroquip crimp machines

Qualified Fittings

- TTC Series (non-skive) and global braided (skive) nipples with 1SB sockets

Comparison of Aeroquip GH793 v. Flextral EX Series Hose.

*Maximum operating pressure shown in psi.

Aeroquip's Part #	GH793 Pressure*	Flextral's Part #	Flextral's EX Series Pressure*	GH793 Advantage
GH793-4	6500	EX-04	5805	+ **12%**
GH793-6	5800	EX-06	5000	+ **16%**
GH793-8	5000	EX-08	4000	+ **25%**
