EATON

Structured Wiring Solutions™

Complete home technology for the way you live.

Enrich your life.

Buying a new home can be an overwhelming task. You want everything to be just right. You want long-term value. You want your home to fit the way you live.

Making your new home attractive and comfortable is more than just furnishings and décor, a home should manage all your needs today and into the future. It should be flexible enough to adapt to your changing lifestyle.

Today's homes incorporate an amazing array of technology, telephones, sound systems, televisions, video players, DVR's, computers, printers, fax machines, security systems, and more. It's simple and affordable to "build-in" the technology that will enrich your life and enhance your home. It all begins with Structured Wiring Solutions by Eaton Corporation.

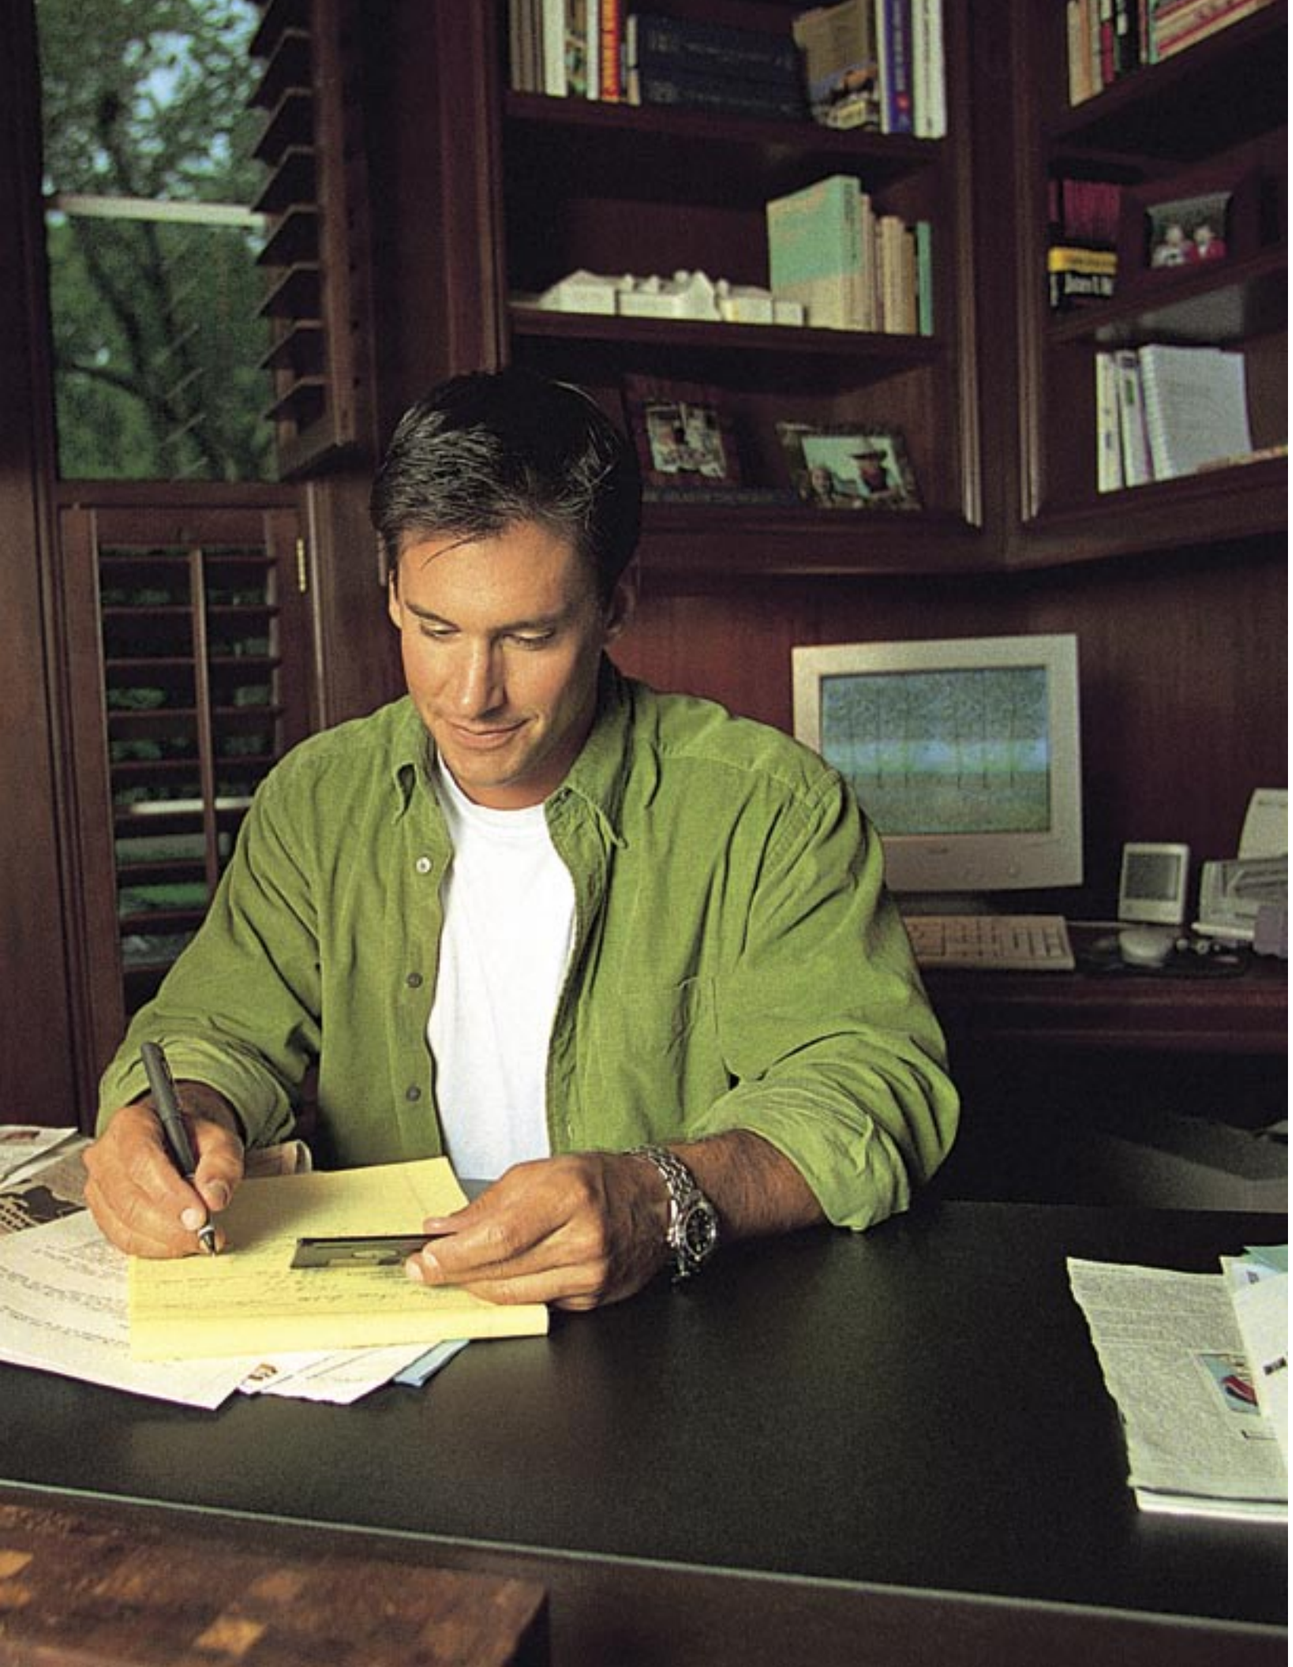
Connect.

From the most basic package to the most advanced, Structured Wiring Solutions by Eaton Corporation are completely customizable. Create a system with all the features and benefits from the very beginning, or start with the basic package and add on as your needs change. Components are built to the highest quality standards with heavier gauge metals and because it's a built-in feature, Structured Wiring is visually unobtrusive.

This dependable, adaptable system means monitoring the baby's room can evolve to setting up an office for the home based business you've always wanted. As your lifestyle changes, Structured Wiring Solutions will adapt to accommodate your needs.

Deluxe Package
Mix and match modules to create a panel that's right for you.

Basic Package
Start with telephone and video. Upgrades are easy with Structured Wiring Solutions.



Communicate.

ESWN400, Router
Networking for 4 computers in your home as well as wireless capabilities.

When you install Structured Wiring Solutions a whole home communication network is immediately in place. The distribution panel connects all services – telephone, cable, audio, video, security, etc - through one central location, with room to expand. Room locations are clearly labeled, making it easy to route and reroute signals around the home. Whether your communication needs are basic or complex - a home office with multiple computers, phone and fax lines, and high speed internet - you'll have the peace of mind that your system is working as hard as you are.

ESWMP300, Patch Module
Route and reroute signals anywhere in your home.

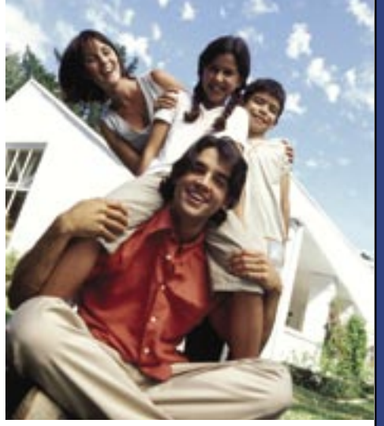
Entertain.

ESWM03, Modulator
Watch a DVD on multiple TV's.

ESWA6550SC, Ceiling Speakers
Enjoy music in your home without seeing the speakers.

Structured Wiring Solutions means high quality video and audio are no longer just for the "media room," now it can be a whole house experience. Watch TV in a bedroom from a DVD located in the family room. Enjoy the rich, full sound of a home theater system. Hear music from CD players, digital music players, radios, and other devices all around the house. In-room volume control allows you to control the volume at each location, or turn off audio altogether. With these options, you and your family can entertain throughout the house in comfort and distinctive style.

Easy audio access in any room.



Complete.

No matter what combination of modules you choose for your Structured Wiring Package:

- Telephone
- Satellite/Cable TV
- High-Speed Internet
- Whole-House Sound
- Home Awareness & monitoring

Know that your new home is ready for today's world and tomorrow's advancements. With Eaton's 10-year warranty your value is ensured... and so is your peace of mind.

Ask your builder or contractor about installing and customizing Eaton's Structured Wiring Solutions to fit your lifestyle. With Eaton you'll know that your home has the best in electrical safety, security, and network technology.

From the service entrance to surge protection to generator products, Eaton's safety, automation, and energy management products let you fully enjoy today's technology while being equipped for tomorrow's innovations.
