Synflex High Pressure Hose

Product Details

Features
- Available in 5,000 and 10,000 psi working pressure
- API 17E compliant for most sizes
- Highly UV resistant nylon and urethane construction reinforced with aramid (Kevlar®) fiber
- Seamless core tube extruded from Besno Nylon 11 P40 TLO
- 316 stainless steel couplings engage the hose with a swage design

Benefits
- The ultimate problem-solving hose for high pressure applications
- Easy to install
- Easy to assemble
- Multiple sizes to meet many needs

Delivering High Performance Under High Pressure

At its core, Synflex® High Pressure Hose is a smooth, seamless, continuous extrusion of Nylon 11 Besno P40 TLO. The hose is reinforced with aramid (Kevlar®) fiber and jacketed with highly UV resistant thermoplastic for long term aging and resistance to hydrolysis. Long continuous lengths are available for subsea bundles and single line applications.

Applications
- Hydraulic Flying Leads
- Workover Umbilical Component
- BOP Bundle Component
- Hot Lines
- Chemical Injection
- Water Injection
Synflex Subsea High Pressure Hose

- Standard Compliance
  - API 17E
  - GP 65-06-03
  - GP 65-05-06
- Available in long continuous lengths over 10,000’ long
- Available in single length or bundle component
- 316 stainless steel fittings with a wide array of hose ends
