**WARNING**

DO NOT ATTEMPT TO INSTALL OR PERFORM MAINTENANCE ON EQUIPMENT WHILE IT IS ENERGIZED. DEATH OR SEVERE PERSONAL INJURY CAN RESULT FROM CONTACT WITH ENERGIZED EQUIPMENT. ALWAYS VERIFY THAT NO VOLTAGE IS PRESENT BEFORE PROCEEDING.

**Installation**

1. Ensure all power is off.
2. Define whether the line or load end will be connected to the busbar.
3. Verify the alignment of the handle and escutcheon with the other breakers if applicable.
4. Break out the three round seals of the busbar adapter on either the line OR load end (Figure 1).

![Figure 1. Breaking Out the Three Round Seals on the Busbar Adapter.](image)

5. Locate the busbar adapter to the proper position horizontally along the bus bar. Then tighten the three clamping screws to 8 N•m (5.9 lb-ft) (Figure 2).

![Figure 2. Location of the Clamping Screws.](image)

6. Put the three cap screws and curved lock washers through the breaker terminals then slide the copper tube connectors onto the screws (Figure 3).

*Note:* Each curved lock washer must be installed on the cap screw with its curvature facing the head of the screw.

![Figure 3. Installing the Cap Screws, Curved Lock Washers, and Copper Tube Connectors.](image)

7. Position the assembly on the busbar adapter and start the three screws (Figure 4).

![Figure 4. Starting the Three Screws.](image)
8. Install the two breaker mounting screws and tighten to 0.7 - 0.9 N•m (0.51 – 0.66 lb-ft) (Figure 5).

9. Tighten the three terminal screws to 8 N•m (5.9 lb-ft) (Figure 6).
The instructions for installation, testing, maintenance, or repair herein are provided for the use of the product in general commercial applications and may not be appropriate for use in nuclear applications. Additional instructions may be available upon specific request to replace, amend, or supplement these instructions to qualify them for use with the product in safety-related applications in a nuclear facility.

This Instruction Leaflet is published solely for information purposes and should not be considered all-inclusive. If further information is required, you should consult an authorized Eaton sales representative.
