## Product application

Eaton's Innovative Technology® XT50 and XT100 surge protective devices (SPDs) protect electronic equipment from damaging transients. These units are suitable for medium and low exposure level applications that require cost-effective, high-quality system protection, including:

- Residential / small business
- Light industrial
- Light commercial
- Service entrance and branch panel protection

*Powering Business Worldwide*

## General description

XT50/100

Since 1980, Eaton's Innovative Technology has been designing and producing SPDs that provide field-proven power quality solutions worldwide. All of Eaton's Innovative Technology products are manufactured in an ISO® 9001:2000 and ISO 14001 certified facility.

Eaton's Innovative Technology XT50/100 models are rugged, cost-effective, high-quality SPDs that feature self-protected metal oxide varistors (MOVs) that eliminate the failure characteristics of standard metal oxide varistors. The self-protected MOV is a fail-safe device that monitors the status of the metal oxide disk and disconnects itself from the power system when the disk is approaching breakdown.

The XT50/100 is easy to install adjacent or even internal to electrical equipment. When installing an SPD in a retrofit environment, it is important to mount the device as close to the electrical equipment as possible. Keep the wiring (lead length) between the electrical equipment and the SPD as short as possible, and twist or wire tie the conductors together to reduce the wire's impedance factor.

## Features, functions, and benefits

- Large diameter, self-protected metal oxide varistors provide long life and fail-safe operation
- Rated 50 kA (XT50) or 100 kA (XT100) peak surge current
- Wide range of voltage applications from 100 to 600 Vac
- Rugged NEMA® 4X (IP56) enclosure
- LED monitoring of each phase
- Wiring systems: single-phase, split-phase, three-phase wye, three-phase high leg delta, three-phase delta, or direct current (DC)
- #10 AWG (6 mm<sup>2</sup>) stranded wire included
- ¾-inch threaded conduit fitting included
- Five-year free-replacement warranty

## Optional features

- Available external mounting feet
- Available flush mount plate

## Standards and certifications

- UL® 1449 4th Edition for surge suppression devices
- CSA® and CE marked
- CE®, CSA®, and UL® on AC unit only
- Vibration tested to IEC 60255-21-1 and IEC 60255-21-2

## Product specifications

**Table 1. XT50/100 model specifications**

Description	Specification
Peak kA per phase	XT50 = 50 kA; XT100 = 100 kA
Peak kA per mode	50
Nominal discharge current	20 kA ①
Short-circuit current rating (SCCR)	100 kA
Single-phase voltages	200, 208, 220, 230, 240, 277, 380, 400, 440, 460, 480
Split-phase voltages	100/200, 110/220, 120/240
High leg delta voltages	240
Wye system voltages	100/175, 110/190, 120/208, 127/220, 220/380, 230/400, 240/415, 277/480, 305/525, 347/600
Delta system voltages	200, 208, 220, 230, 240, 380, 400, 415, 440, 480, 525, 600
Direct current voltage ②	48 Vdc, 125 Vdc
Input power frequency	47–420 Hz (50/60 Hz typical)
Protection modes	Single-phase: L-N, N-G, L-G Split-phase: L-N, N-G, L-G, L-L High leg delta: L-N, N-G, L-G, L-L, H-N, H-G, H-L Wye: L-N, N-G, L-G, L-L Delta: L-G, L-L Direct current (DC): L-L, L-G
Number of ports	1
Specific energy	100 kJ/ohm
Weight	≈2.0 lb (1.0 kg)
Operating temperature	–13 °F (–25 °C) to +140 °F (+60 °C)
Vibration tested	IEC 60255-21-1 and IEC 60255-21-2

① 480L, 600D, and 600Y units rated 10 kA I<sub>n</sub>.

② DC models only available in 50 kA.

**Table 2. XT50/100 voltage ratings**

Model	System configuration	Nominal system voltage	MCOV				UL 1449-4 VPR ①			
			L-L	L-N	L-G	N-G	L-L	L-N	L-G	N-G
<b>XT50</b>										
1P201	Single-phase two-wire + ground	200, 208, 220, 230, 240, 277	—	320	640	320	—	1200	1200	1200

① UL 1449 4th Edition VPR (voltage protection rating) test environment: All tests performed with 6-inch lead length, positive polarity.

② DC units available in 50 kA only. Voltages shown are the maximum suggested operating voltages and are not UL certified.

## Product ordering guidelines

### XT 50 IP201

Per phase peak surge current (kA)
50 = 50
100 = 100 ①

Configuration and voltage ranges (Vac)
IP201 = Single-phase—200, 208, 220, 230, 240, 277
IP400 = Single-phase—380, 400, 440, 460, 480
IS101 = Split-phase—100/200, 110/220, 120/240
3D101 = Three-phase high leg delta—120/240
3Y101 = Three-phase wye (star)—100/174, 110/190, 120/208, 127/220
3Y201 = Three-phase wye (star)—220/380, 230/400, 240/415, 277/480
3Y300 = Three-phase wye (star)—305/525, 347/600
NN201 = Three-phase delta—200, 208, 220, 230, 240
NN400 = Three-phase delta—380, 400, 415, 440, 480
NN501 = Three-phase delta—525, 600 (600D available in 50 kA only)
048DC = Direct current—48 Vdc ①
125DC = Direct current—125 Vdc ①

① DC models only available in 50 kA.

## XT50/100 accessories

Table 3. XT50/100 accessories

Description	Catalog number
External mounting feet	MNTGFTX
Flush mount plate	FLUSHMNTPLATE12
