Eaton is an intelligent power management company dedicated to protecting the environment and improving the quality of life for people everywhere. We make products for the data center, utility, industrial, commercial, machine building, residential, aerospace and mobility markets. By capitalizing on the global growth trends of electrification and digitalization, we're helping to solve the world's most urgent power management challenges.

We are a leader in sustainability, so we embrace our responsibilities to our shareholders and all stakeholders, and our broader commitments to society. We're pursuing bold, science-based targets to become carbon neutral within our own operations by 2030. We believe in doing business right, so we operate with the highest standards of ethics and integrity. We remain committed to advancing inclusion and diversity inside our company and across society, and to improving the communities where we operate.

Eaton was founded in 1911 and has been listed on the New York Stock Exchange for more than a century. We reported revenues of nearly \$25 billion in 2024, employ more than 93,000 people around the world and serve customers in more than 160 countries.

Eaton in India

Eaton has been in India since 1999 and has become a crucial component of the company's overall global business strategy.

Powering Business Worldwide

The company has made a concerted effort to build a significant profile across all business segments, including Electrical, Aerospace and Mobility Group, made up of the Vehicle and eMobility businesses, with a strategic focus on leveraging India's diverse opportunities for critical manufacturing and engineering capabilities, product development, service centers and globally competitive sourcing.

- Eaton's India Professional Services Center with more than 2,000 employees offers a spectrum of capabilities from an integrated facility in Pune. The Center enables Eaton globally to innovate, enhance efficiencies, strengthen its customer focus, and create value.
- Eaton's Supply Chain Center of Excellence in Pune partners with Eaton plants and Supply Chain teams across the world in their sustained endeavors toward enhancing their overall operational efficiencies.
- The Eaton India Innovation Center in Pune, with its more than 2,500-strong workforce, is driving engineering and research and development projects for all of Eaton's global businesses.
- Eaton in India is certified as India's Best Workplaces™ in Manufacturing 2023 in the Top 25.

Supporting regional development

We help customers worldwide manage the power they need for buildings, aircraft, trucks, cars, machinery and entire businesses. And we do it in a way that consumes fewer resources. By providing innovative industrial technologies, high-quality products and superior customer relationships, we are proud to play an active role in the Asia-Pacific region. We support infrastructure growth and economic expansion by providing intelligent electrical systems, automotive components, aerospace parts and e-mobility components.
