

2019 Industrial Day

Eaton is hosting a technology day for industrial markets at the Power Systems Experience Center in Pittsburgh on October 3, 2019. You're invited to learn from industry experts providing live demonstrations and over 10 training courses for CEUs and PDHs offered multiple times throughout the day. Experience hundreds of products installed in industrial applications focused on safety, reliability and energy efficiency. From engineers to contractors to end users, our goal is to help industrials increase safety within harsh and hazardous environments, reduce downtime, optimize operational efficiency and lower total cost of ownership. Our real-world applications and training classes address the needs of the oil and gas, mining, metals and minerals, water and wastewater, and other industrial markets. Drop in at any time throughout the day.

We look forward to seeing you!

*Mystery door prizes and giveaways

Event date: **October 3, 2019**

Location: **The Power Systems Experience Center**
130 Commonwealth Drive
Warrendale, PA 15086

Time: 8:30am to 4:30pm
Lunch will be served

RSVP: Eaton.com/industrialday2019

What to expect

Live demonstration and CEU-PDH training courses:

- Arc flash solutions
- Hazardous area solutions
- Power system studies
- Modernization solutions
- Power quality solutions
- VFD applications
- Switchgear solutions
- Structural steel savings

New product introductions and case studies:

- Arc Quenching Switchgear
- XGIS Switchgear
- Power Defense breakers
- Power quality demonstrations

Who should attend

Consultants, design engineers, contractors, end users, facility owners and operators, and any individuals working within industrial markets, including oil and gas, mining, minerals and metals, water and wastewater, manufacturing and more.

The Eaton Experience Center team looks forward to seeing you soon!

Powering Business Worldwide

Our Experience Centers step customers through power system applications from generation to the receptacle and offer industry-specific education with hands-on demonstrations of Eaton's entire line of electrical products. These applications offer insight into design, technology and installation practices of the products within each application.

Applications to look forward to

- Utility substation and distribution
- Industrial training lab
- Microgrid
- Power quality lab
- Backup power
- Oil and gas area

Utility substation and distribution
