

Customized power configured for your event

Powering Business Worldwide

Power where and when it is needed

Events provide an escape, a night of family fun at a local carnival, a county fair, or an evening of memories listening to your favorite band. Eaton powers these experiences with a full array of event power panels, pedestals and mountable options. Whether standard or customized to specific electrical requirements, Eaton marina and RV park solutions keep the fun going meeting the critical power needs for all your events.

Tailored to your event's power requirements

Every event panel is manufactured to your requirements at our facility in Williamsburg, VA. Your design can include:

- A NEMA 3RX stainless enclosure to withstands potential tough elements a outside event might provide.
- Customizable power and receptacle combinations
- Multiple voltage configurations, including single and three phase options.

Applications

Our event panels are an ideal power source for many types of events that have unique electrical requirements, including:

- State & county fairs
- Fairgrounds
- Music festivals
- Street fairs
- Carnivals
- Promotional events
- Food trucks
- Convention centers
- Food truck operators

Wall Mount Event Panel

As events increase in scale and presentation, the electrical requirements become more complex as well. Eaton's event panels are available as 3R enclosures in heights of 36", 42", and 54". Each power module comes standard with 6, 8, or 10 receptacle position fill options. This temporary power solution is durable, built to last, and configured to each customer's needs.

- Eaton panelboard
- Single and three phase applications
- 6, 8, and 10 receptacle position options
- 400A service rating
- Optional main breaker or switch
- 20A - 100A receptacles available
- Outdoor rated enclosure (NEMA 3R)
- Custom grayscale color options
- Dimensions:
 - 36" x 24" x 7.3" (Enclosure & Trim)
 - 48" x 24" x 7.3" (Enclosure & Trim)
 - 54" x 24" x 7.3" (Enclosure & Trim)
- UL listed

Pedestal Mount Event Panel

Eaton's pedestal mount event panels are a customizable and reliable power option for all types of events. This power solution is available as a 3RX enclosure with dimensions up to 24" x 18" x 65" and a service rating up to 600A. The pedestal mount event panel solves the special power needs for every possible outdoor event from festivals to carnivals to convention centers. This power solution is durable, built to last, and configured for each customer's needs.

- Eaton panelboard
- Single and three phase applications
- Over 18 receptacle position options
- 600A service rating
- Optional main breaker or switch
- Custom color options available
- Cam-Lok™ connections for auxiliary power (In/Out)
- Outdoor rated enclosure (NEMA 3RX stainless-steel)
- Dimensions:
 - 24" x 18" x 65"
- UL listed

Food Truck Power Pedestal

Eaton's food truck pedestals provide safe reliable power in a compact, self-contained unit with standard generator output receptacles. It is designed to mount on a wall, a pad, or direct burial. The food truck pedestal meets the special power needs for food trucks at every possible outdoor event, from neighborhood parks to breweries to fairgrounds. The food truck pedestal is a power solution that is durable and built to last.

- Sleek and durable design to fit any aesthetic
- Compact and self-contained unit
- Designed to mount on a pad or direct burial
- LED lighting
- Standard generator output receptacles
