Energizing a world that demands more.

Eaton brings a new dimension of expertise to help master the heavy power capabilities and safety systems integral to uninterrupted operations in the harshest environments and help maximize the efficiency of operations. Our customized, innovative solutions can be retrofitted to extend life cycles, meeting changing regulatory and processing requirements. And with leading safety products, including the Crouse-Hinds™ family of offerings, we offer a unique combination of systems, components and services that ensure you minimize risk and optimize your investment, wherever your business takes you.
Eaton’s B-Line business
PH: (800) 851-7415
blineus@cooperindustries.com

Associated product lines
- Cable ladder systems
- Strut and fasteners
- Enclosures
- Safety grating
- Design tools and services

Eaton’s Bussmann business
PH: (855) BUSSMANN
busscustsat@eaton.com

Associated product lines
- Power and control fuses
- Fuseholders and blocks
- Fusible panelboards
- Fusible switches
- Surge protection

Eaton’s Crouse-Hinds business
PH: (866) 764-5454
crouse.customerctr@cooperindustries.com

Associated product lines
- Lighting solutions
- Plugs, receptacles and connectors
- Power connectors
- Cable, conduit and wiring solutions
- Hazardous area communications
- Signals and alarms
- Pushbutton stations and switches
- Design tools and services
- Instrumentation
- Enclosures

Eaton’s Experience Center
industrial certified training
PH: (713) 280-3400
eaton.com/experience

Marine grade transformer
- Liquid-filled to 12 MVA (ANSI)
- Non-segregated medium- and low-voltage busway
- FR3 environmentally-friendly fluid
- Dry-type distribution transformers (ANSI)
- Pole-mount, pad-mount and substation transformers
- ABS approved

E-houses and portable power solutions
- Turnkey engineered E-houses
- Mobile substations and capacitors
- Factory acceptance testing, field commissioning

Medium- and low-voltage switchgear
- Generator and line mounted switchgear
- Metal-clad medium-voltage switchgear rated to 38 kV
- Metal-enclosed low-voltage switchgear up to 600 V, 10,000 A continuous cross bus
- Standard and arc-resistant medium- and low-voltage switchgear
- Medium-voltage, liquid-filled vacuum interrupter switchgear and sectionalizing switches
- NEMA®/ANSI and IEC ratings

Medium- and low-voltage motor control centers
- Medium-voltage motor control centers rated 2.4 kV to 13.8 kV
- Standard and arc-flash preventative motor control centers
- Both NEMA/ANSI certified

Medium- and low-voltage drives
- 4160 V to 6000 hp
- 600 V to 2000 hp
- Medium-voltage with 24-pulse input technology
- Low-voltage 6- and 18-pulse input technology
- IEEE® 519 harmonic compliance
- Arc-resistant design

Medium- and low-voltage circuit protection
- Hazardous area circuit breakers
- Molded-case industrial breakers
- Marine circuit breakers
- Arcflash Reduction Maintenance System™

Medium- and low-voltage power distribution
- Panelboards
- Safety switches
- NEMA/ANSI and IEC ratings
- Industrial and hazardous areas
- Hazardous area transformers

Medium- and low-voltage circuit protection
- Hazardous area circuit breakers
- Molded-case industrial breakers
- Marine circuit breakers
- Arcflash Reduction Maintenance System™

Meters, sensors and relays
- Revenue-grade energy monitors
- Fast transient sampling, event monitoring
- Motor and feeder protective relays
- InsulGard partial discharge

Low-voltage power distribution
- Panelboards
- Safety switches
- NEMA/ANSI and IEC ratings
- Industrial and hazardous areas
- Hazardous area transformers

Low-voltage circuit protection
- Hazardous area circuit breakers
- Molded-case industrial breakers
- Marine circuit breakers
- Arcflash Reduction Maintenance System™

Backup power (UPS)
- Engineered for industrial environments with unpredictable power conditions
- FERRUPS® voltage regulating
- Marine certified
- NEMA/ANSI and IEC ratings
- ABS approved

Cable ladder systems and mechanical solutions
- Aluminum, stainless steel, galvanized steel and FA series fiberglass material options
- Strut systems, fittings and accessories
- Grip Strut™ safety grating and various slip-resistant grating solutions
- NEMA/ANSI and IEC ratings

Power panels and motor control
- Power distribution panels
- Combination motor starters
- Explosionproof VFDs
- Specialty and traditional control stations
- Switch rack assemblies
- Hazardous, harsh, industrial areas

Cable ladder systems and mechanical solutions
- Aluminum, stainless steel, galvanized steel and FA series fiberglass material options

Power panels and motor control
- Power distribution panels
- Combination motor starters
- Explosionproof VFDs
- Specialty and traditional control stations
- Switch rack assemblies
- Hazardous, harsh, industrial areas
**Eaton**

**Solutions for oil and gas upstream line card**

---

**Eaton’s power systems business**

PH: (877) 277-4636
cps-info@cooperindustries.com

Associated product lines
- Medium-voltage switchgear
- Overhead distribution equipment
- Capacitor banks, filters and voltage regulators
- Arresters
- Medium-voltage transformers
- Cable accessories
- Controls and relays
- Smart fault indicators
- Engineering services
- Medium-voltage fusing
- Power and distribution transformers/busway

---

**Eaton’s MTL Instruments business**

PH: +44 (0)1582 723633
enquiry@mtl-inst.com

Associated product lines
- Hazardous area communications
- Intrinsic safety
- Surge protection
- Process alarm equipment
- HMI and visualization
- Field bus

---

**Eaton’s MTL Instruments business**

enquiry@mtl-inst.com

Associated product lines
- Hazardous area communications
- Intrinsic safety
- Surge protection
- Process alarm equipment
- HMI and visualization
- Field bus

---

**Plugs, receptacles and connectors**

- Single-pole connectivity
- Multi-pin connectivity
- Molded to cable
- Control and instrumentation connectors
- NEMA/ANSI and IEC ratings

---

**Wireless and communications**

- Wireless I/O systems
- Cellular communications
- Gateway interconnection
- Network management
- Remote monitoring and control

---

**Hazardous area and life safety communications**

- Command and control centers
- Fire detection and alarms
- Mass notification systems
- Visual and audible signaling devices
- Closed circuit TV systems
- VOIP and analog phones
- NEMA/ANSI and IEC ratings

---

**Disc brakes**

- Full suite of air-cooled disc brakes suitable for swing propellor hoist, and drag functions
- Revolutionary new disc brake technology—Floating Hose Brake (FHB)—offers a rapid friction replacement capability

---

**Filtration**

- Filtration expertise to meet quality, cost, safety or environmental needs
- ASME, PED, IEL, CE, CRN, CSA, NEC, ATEX, NACE, NR-13 standards
- Pipeline strainers, bag and cartridge filtration and gas liquid separators
- ReactoGard® systems to protect fixed bed catalytic reactors

---

**Design tools and services**

- Lighting layout and design services
- Power systems automation
- Custom SKU-level 2D and 3D models for integration into design software
- Custom SKU-level spec sheets
- TrayCAD and CoSPEC

---

**Electrical products and services**

As a global power management company, we help customers worldwide manage the power needed for buildings, aircraft, trucks, cars, machinery and businesses.

Eaton's innovative technologies help customers manage electrical, hydraulic and mechanical power more reliably, efficiently, safely and sustainably.

We provide integrated solutions that help make energy, in all its forms, more practical and accessible.

With 2015 sales of $20.9B, Eaton has approximately 100,000 employees around the world and sells products in more than 175 countries.
