Progression in battery technology and remote management come together to make the 5P lithium-ion rackmount UPS a necessity for edge computing environments. Now, you can simply set it and forget it by deploying the 5P without the maintenance and refresh challenges of a UPS utilizing lead-acid batteries.

Building on the success of the 5P UPS platform, Eaton has reduced the weight, improved battery life and lengthened our warranty. These added benefits, in combination with the extended life of the product, provide you with the opportunity to align your UPS refresh cycles with the rest of the IT stack, saving time and money spent on labor and replacement batteries.

Eaton’s 5P lithium-ion battery pack with on-board battery management — increases cycle life in higher temperature environments.

**Value-added benefits:**

**Performance**

2-3X longer battery lifespan allows you to “set it and forget it”—a perfect value-add for remote edge environments.

**Resiliency**

3X faster recharge following power disruptions reduces vulnerability and improves uptime.

**Safety**

On-board battery management system (BMS) monitoring in combination with proven Lithium Iron Phosphate (LiFePO₄) chemistry provides a reliable and safe offering.

**Intelligence**

BMS provides up-to-date insight into battery performance, charge cycles and active temperature monitoring to keep you informed on the lifecycle of your UPS battery.

**Installation**

Lightweight design that is 20% less weight than a comparable lead-acid UPS in combination with versatile mounting options (including wallmount) allow for ease of deployment.

**Guarantee**

5-year all-inclusive (electronics and battery) warranty, provides peace of mind.
Rear panel overview

Model: 5P1500R-L

1. 5-15P input
2. RS-232 serial communications port and USB port (cables included)
3. Remote power off (RPO) and remote on/off (ROO) port
4. Ground bonding screw
5. Primary outlets: (2) 5-15R always on
6. Load segment group 1: (2) 5-15R managed outlets
7. Load segment group 2: (1) 5-15R managed outlet
8. Network card slot

Model: 5P1550GR-L

1. C14 Input
2. RS-232 serial communications port and USB port (cables included)
3. Remote power off (RPO) and remote on/off (ROO) port
4. Ground bonding screw
5. Primary outlets: (3) C13 always on
6. Load segment group 1: (2) C13 managed outlets
7. Load segment group 2: (1) C13 managed outlet
8. Network card slot
