Key Dimensions:

1. X-b: Required Control Location. These dimensions must be defined for all critical and ongoing processes, including inspection, poke yoke, etc., as appropriate.
2. X-b: Statistically Toleranced Dimension. These dimensions require demonstration of ongoing process capability (Cpk/PPK).
3. Key Dimensions: These dimensions are defined by the engineer and need inspection as appropriate. If you need more information, please review the criteria in (TC-RDW-16) and (TC-GAW-40).

Dimensions:

- 204.4 mm
- 419.8 mm
- 301.7 mm
