

## Eaton FERRUPS UPS end-of-life announcement

Effective September 11, 2020

Eaton is announcing end-of-life (EOL) status for select Eaton FERRUPS models (FE, FF, FG and FH models). The current FERRUPS product line will be refreshed by the Eaton FXUPS series in 2020.

Beginning September 11, 2020, the above-mentioned FERRUPS models will no longer be available for purchase. Due to the limited supply of components for these products, last time bulk purchases will not be offered during this period. Furthermore, due to the unique nature and age of these FERRUPS models it is possible that a minority of current orders will be unable to be filled. Projects where these models are currently being quoted, beyond the EOL date, should be re-specified to a non-end of life product. If this is not possible please reach out to Eaton for assistance.

We appreciate your support as we transition all our customers.
