

EOL notice: Select Eaton Basic, Managed and Metered Input rack PDU models

Eaton is announcing end-of-life status for select PDUs effective February 1st, 2023. These models are being eliminated as we work to consolidate and streamline our offerings for improved lead times and availability. Orders entered against the part numbers will be honored on a first come, first serve basis until all remaining stock is depleted.

Eaton recommends upgrading to one of the appropriately identified products noted below. If assistance is needed in product selection, please contact Inside Sales support.

Discontinued models impacted	Recommended replacement model
