Hardware Version: 2.4.2

UL 2900-1:2023

Standard for Software Cybersecurity for Network-Connectable products,
Part 1 General Requirements Second Edition, December 13, 2023.

Program owner:

Dean Zwarts

Dean Zwarts, Senior Business Manager

This is to certify that representative sample(s) of the Product described herein have been investigated and as of the date of testing, found in compliance with the Standard(s) indicated on this Certificate. UL Solutions does not provide any representation or guarantee that all security vulnerabilities or weaknesses will be found or that the product will not be vulnerable, susceptible to exploitation, or eventually breached. The designated Certificate Holder is entitled to market the Product in accordance with the Service Agreement and Cybersecurity Assurance Program Service Terms. This Certificate shall remain valid until the indicated Expiration Date unless terminated earlier in accordance with the Service Agreement or if the referenced Standard is amended or withdrawn. This Certificate in and of itself does not authorize the Certificate Holder to use any UL Solutions trademarks on the Certified Product. UL Solutions trademarks may only be used if the Certified Product is also covered under the applicable UL Solutions mark program(s).

Conditions of Certificate

The following conditions must be met for the product to continue to be in compliance with this certificate:

1. This certificate covers the following version:
 - a. 2.4.2
2. This certificate covers the following device:
 - a. Gigabit Network Module
3. Edelweiss must be configured to the guidelines and specifications of the following document(s):
 - a. ePDU eNMC2 Network Management Card - User Guide Edelweiss_Securing.pdf
 - b. Eaton-CCOE-SecureConfiguration-Guidance for Edelweiss.docx
4. The following configuration must be observed:
 - a. It is the responsibility of the end user to configure the recommended cybersecurity best practices to meet their security needs.
 - b. It is the responsibility of the end user to regularly update the Gigabit Network Module, per Eaton's recommendations, with the latest security patches of the software user by the product.
