

Detroit Truetrac® Application for GM® 2500HD Trucks

Detroit Truetrac

- Smooth and automatic engagement - no driver action needed
- Maintenance free, more time on the road
- Increases stability while towing
- Improves off-road traction
- Limits wheel spin-out and improves handling

Detroit Truetrac Applications for 2020-2025 GM 2500 HD Diesel Trucks

The Truetrac operates as a standard (open) differential under normal driving conditions, allowing for unobtrusive operation. When a wheel encounters a loss of traction or the terrain changes, the helical-shaped gears mesh with increasing force, transferring torque to the high traction wheel until wheel spin is slowed or completely stopped. When the vehicle exits the low traction situation, the differential seamlessly resumes normal operation.

A complete portfolio for your truck.

NEW

Part number: 917A740

Model Year Applicability
2020 - 2025 GM 2500 HD Diesel Trucks - GM Silverado/Sierra 2500 HD, W/ 6.6L Diesel, Exc. OEM Electronic locking differential.

Axle Model: AAM 11.5"

Position: Rear

Ring Gear Dia.: 11.5"

Gear Ratio: All

Axle Spline: 31 teeth

Differential Type:
Limited Slip

Packaging Dimensions:
11"x11"x10.5

Weight: 67 lbs.

UPC: 840379398410
