Six-point secondary terminal blocks used with Magnum low voltage circuit breakers

⚠️ WARNING
(1) ONLY QUALIFIED ELECTRICAL PERSONNEL SHOULD BE PERMITTED TO WORK ON THE EQUIPMENT.
(2) ALWAYS DE-ENERGIZE PRIMARY AND SECONDARY CIRCUITS IF A CIRCUIT BREAKER CANNOT BE REMOVED TO A SAFE WORK LOCATION.
(3) DRAWOUT CIRCUIT BREAKERS SHOULD BE LEVERED (RACKED) OUT TO THE DISCONNECT POSITION.
(4) ALL CIRCUIT BREAKERS SHOULD BE SWITCHED TO THE OFF POSITION AND MECHANISM SPRINGS DISCHARGED.
FAILURE TO FOLLOW THESE STEPS FOR ALL PROCEDURES DESCRIBED IN THIS INSTRUCTION LEAFLET COULD RESULT IN DEATH, BODILY INJURY, OR PROPERTY DAMAGE.

Section 1: General information
Secondary terminal blocks have finger-proof hinged covers with small holes for probe testing. A #2 Phillips head screwdriver is the only required tool.

Section 2: Installation of terminal blocks
To install the terminal blocks, proceed with the following four steps:

Step 1: Remove two screws and a retaining bracket from the right side of terminal block mounting bracket.

---

Step 2: Slide each blank to the right until the tabs of the blank line up with cutouts in the bracket, then remove. Follow this procedure for both rows.

---

Step 3: Position the terminal blocks so that their hinged door opens down. Then insert the tabs of the terminal blocks into cutouts of the terminal block mounting bracket, and slide to the left. Ensure that all gaps are refilled with blanks.

---

Step 4: Replace the retaining bracket and screws removed in Step 1 after both rows are fully populated with terminal blocks and blanks. Ensure that all terminal blocks and blanks are slid all the way to the left.
Disclaimer of warranties and limitation of liability

The information, recommendations, descriptions, and safety notations in this document are based on Eaton Corporation’s (“Eaton”) experience and judgment, and may not cover all contingencies. If further information is required, an Eaton sales office should be consulted.

Sale of the product shown in this literature is subject to the terms and conditions outlined in appropriate Eaton selling policies or other contractual agreement between Eaton and the purchaser.
