Technical Data 2541

3216LV
Fast-acting Line-voltage Chip™ surface mount fuse

Product features
- Surface mount fuse, fast acting, 125 Vac
- Utilize thick and thin metal film technologies for superior fusing action and enhanced reliability.

Agency information
- CSA Component Acceptance: 053787 C 000 & Class No: 1422 30

Notes:
1. AC interrupting rating (Measured at rated voltage with a unity power factor)
2. DC interrupting rating (Measured at rated voltage, time constant of less than 50 microseconds, battery source)
3. Voltage drop measured at rated current after temperature stabilizes at 23 ± 3 °C
4. Typical melting I²t (Measured with a battery bank at rated voltage and 50 A current, time constant of calibrated circuit less than 50 microseconds)
5. It is recommended that fuses be mounted with ceramic (white) side facing up
6. Device designed to carry rated current for four hours minimum. An operating current of 80% or less of rated current is recommended, with further derating required at elevated ambient temperatures
