September 23, 2005
To: MWO Fuse Customers
Subject: **MWO Fuse END of LIFE NOTICE**

Due to the low MWO market demand and manufacturing site consolidations, the MWO ¼" ferrule fuse Series is at its end of life as a current product offering.

The MWO-12A and 15A fuses carry a UL listing at 125V. Depending on the required voltage rating of the application, the alternatives are the:

- MDL time-delay glass fuse family (UL recognized at 32V)
- MDA time-delay ceramic fuse family (UL listed at 250V)

The data sheets for the MDL and MDA Series may be found on our web site (www.cooperbussmann.com).
