Commercial Meter Pedestals
Eaton’s Commercial Meter Pedestals provide an economical solution for site power distribution and control. These products are ideal for applications such as traffic signals, outdoor lighting, highways, temporary power generation, and irrigation control. With service ratings up to 320A, a huge selection of paint options, customer configured/factory installed controls, and a five day lead time on most configurations, models are available for virtually any project with any timeline.

**Applications**
These units are ideal for controlling and metering:
- Traffic signals
- Street lighting
- Irrigation / sprinkler systems
- Cell towers / telephone vaults
- Pump stations
- Temporary power for fairgrounds, swap meets, outdoor markets, portable offices, holiday lights, etc.
- Outdoor lighting for athletic fields, tennis and basketball courts, parking lots, landscaping and subdivision entrances, etc.

**Features and benefits**
- Type 3R rainproof, vandal-resistant cabinet of powder-coated steel, aluminum or stainless steel
- Wall mount designs available for residential application such as outdoor lighting, sprinklers, pool heaters
- Lockable customer section for distribution and control equipment with internal deadfront
- Isolated, lockable and sealable utility metering and lug landing sections
- All UL listed internal components: load centers, photocell timers, thermostats, receptacles, etc.
- Meets EUSERC 308
- 100-320 Amp service rating
- UL Listed as enclosed industrial control equipment (UL508A)

**Modification program: paint options**
See reverse for additional paint swatches and modification program information.
## Customization options

**Common items**

### Switching
- Hand-Off-Auto
- Test switch

### Timer Clocks
- 24 hour mechanical
- 7 day programmable

### Photo Cells
- Installed in window
- Remote mount

### Contactors
- 30A per pole standard
- Up to 200A options available

---

Commercial Meter Pedestal

DESIGN OVERVIEW

Unique hinge design improves ergonomics when accessing meter socket

Up to 400A ring type and ringless sockets

Multiple widths available

Five day lead time on standard configured solutions

Modification program: paint options

Eaton offers hundreds of paint options that are readily available to meet normal B-Line series enclosure modification program lead times. The RAL number, general paint description, and color swatch are provided below and inside this brochure. All options shown are rated for outdoor use and come in a smooth high gloss finish, unless otherwise requested. For custom paint requirements, please contact us, and please provide a paint chip sample for reference.
