Guardian of the grid

The Pow-R-Line Xpert panelboard and switchboard family

Features & benefits

PREDICTIVE
Breaker health diagnostics
Monitors and communicates breaker health status, enabling predictive maintenance to avoid costly, unscheduled downtime

INSIGHTFUL
Integrated metering capabilities
Simplifies installation by current and voltage metering internal to trip unit with no need for external modules

PREPARED
Standardized ARMS functionality
Enhanced and consistent functionality of industry-leading solution to reduce arc flash energy released during maintenance operations

ADAPTABLE
Thru-cover accessories
Easily removable secondary covers designed to install a wide range of accessories in field without voiding factory warranty

CONNECTED
Embedded communications
Helps to reduce cost by eliminating the need for separate communication components and associated wiring

EFFICIENT
PXPM testing and configuration
PXPM trip units equipped with micro-USB communication for secondary injection testing through your PC, saving you labor hours and the cost of expensive test kits

CLEAR VISION
Re-engineered dead-front covers
Offers full visibility to breaker faceplate as well as accessibility to trip units without having to remove dead-front cover
