SKU.1 CG-S 4x1.5A circuit switching
DualGuard-S – central battery system

SKU.1 CG-S 4x1.5A

• CG technology provides for automatic monitoring of up to 20 safety lights and emergency signs without requiring the transmission of additional data for each circuit
• Overload indicator
• Programmable switching for each individual light with no need to make adjustment directly to the light itself
• Automated isolation fault finding
• Assemblies use service-friendly module technology, wired ready for connection to triple-deck 4 mm² neutral terminals
• Large finger-safe ventilation slits for optimum heat dissipation
• Simple, time-saving snap-on click installation on device rack
• Wide sign racks for customized labeling
• Meets all EMV requirements for industrial and commercial use
• DEKRA system certification documents product quality and compliance with standards for the entire system
• Functionality for 30 minutes during fire verified in a fire test conducted by an independent materials testing institute
• Conforms to RoHS and REACH

Inputs
Nominal AC voltage 220-240V
Nominal DC voltage 184-275V
Rated frequency 50 or 60 Hz
Maximum head dissipation capacity: 8 W

Outputs
Rated current 1.5A
short-circuit current 1500A
Inrush current 60A per circuit/240A per module
