

Eaton SecureConnect™ end-user app

Eaton SecureConnect™ is a smart intruder solution offering property owners 24/7 control over their security system from anywhere in the world through a user-friendly mobile app available for iOS and Android operating systems.

- Real-time push notifications of system activity are sent directly to the end-users smart device alerting them to events whether home or away.
- Allows users to set or unset their system remotely and receive visual verification of events instantly.
- Eaton's securely encrypted app is equipped with facial and fingerprint recognition and has been rigorously tested and approved by Eaton's Cyber-Security Centre of Excellence.
- Available on Eaton's second generation Scantronic i-on burglar alarm panels - i-on Compact, i-on Style, i-on30R and i-on40H.

Compatibility

Description

Compatibility	Description

Eaton SecureConnect™ installer cloud

Eaton SecureConnect™ installer cloud is a smart security management system for residential and commercial buildings, enabling remote monitoring of the latest IP intruder alarm devices via a user-friendly interface. Thoroughly tested by Eaton's Cyber-Security Centre of Excellence and keeps installers in total control of their installations.

- Perform configuration diagnostics and software updates from anywhere in the world. Drastically reducing call-out time, allowing installers to achieve more in a day than ever before.
- From any web browser manage all of your connected panels across multiple customers.
- Partnerships with CSL and WebWay add an extra layer of security to the Eaton SecureConnect system by facilitating immediate and reliable transmission of data from the premises to an ARC in the event of an alarm being triggered.
- Available on Eaton's second generation Scantronic i-on burglar alarm panels - i-on Compact, i-on Style, i-on30R and i-on40H.
