**Compliance Report Notes:**
- Specific products included in this special seismic certification are outlined in 1800524-CR-001, issued by TRU Compliance, a division of Structural Integrity Associates, Inc. Detailed information relating to certification levels, construction details, options, and mounting arrangements are included therein.
- This compliance report is limited by, and necessarily dependent on, the construction of the product and the accuracy of the information provided by the Equipment Manufacturer. Therefore, this report is valid only for the components and systems as they were configured and manufactured at the time of testing or evaluation. Any alterations to the product or its components could result in a decrease in seismic performance and thus render the resultant conclusions void.
- Refer to 1800524-CR-001 for all requirements, limitations, and special conditions of approval.
- For more information, please contact the Equipment Manufacturer or the Seismic Certification Agency.
- This ISO 17065 Certification fulfills the requirements of the TRU Compliance Certification Standard for Seismic, Wind, and Physical Security Performance, Revision 3, dated March 18, 2019 plus the standards referenced above.
