KwikSplice™ cable tray system

Save up to 50% on material and installation time

The KwikSplice system is a light-weight, yet durable cable management system that is rated for NEMA 12A and 12B load classes. The system is ideal for commercial, light-industrial, data center, healthcare, education and government cable management applications.

- Two bolt splice connection saves installation time
- Universal fitting eliminates field cutting
- I-beam design reduces material and enhances performance
- Utilizes standard ¼” hardware
- Helps eliminate the need for additional costly electrical grounding solutions when compared to wire basket systems
- Rated for NEMA 12A and 12B (CSA class C & D) load classes
- Stocked in multiple locations in U.S. and Canada for quick turnaround. See list of stocked items on the back.
- For more information and a complete list of KwikSplice part numbers, please visit: www.cooperbline.com/KwikSplice
