

## 4250 SERIES

The 4250 series is a dual output, eight bolt, heavy-duty PTO. It features two independent air operated outputs, with a variety of ratio and output combinations. The 4250 is a highly versatile PTO for many applications where two PTO's would otherwise be required. Exclusively for Eaton Fuller transmissions.

### Transmission applications:

- SAE 8 bolt, Eaton Fuller transmissions.

### Typical uses:

- Virtually any application on an Eaton Fuller transmission requiring two PTOs.

### Features and benefits:

- High torque and HP ratings for grueling applications.
- Industry exclusive dual output for multiple applications.
- Independently air operated outputs, each integrated into the housing for better clearance.
- Industry leading gasket material and Viton™ O-ring material & shaft seals.
- Large, oversize bearings provide long life on higher torque applications such as blowers.

### Competitive with:

Exclusively from Bezares

Torque ratings: up to 420 lb. ft.
