EZ Link™

MODULAR DEVICES

Table of contents

EZ Link modular devices

Arrow Hart EZ Link™ modular devices are the most efficient way to wire receptacles and switches for large commercial projects. Engineered from the ground up, the revolutionary design reduces installation errors and allows for secure, aligned and accurate installation the first time.
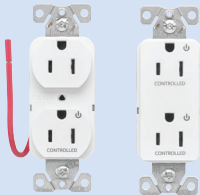

EZ Link modular devices families

Heavy-duty duplex & decorator receptacles
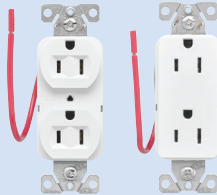

E-4
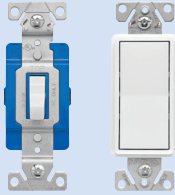

Heavy-duty half & dual controlled receptacles

E-5

Heavy-duty split circuit receptacles
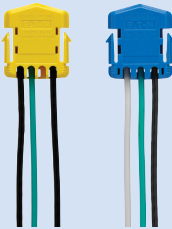

E-6

Heavy-duty single pole & 3-way switches

E-7

EZ Link switch & receptacle connectors

E-8

The Eaton difference

Revolutionary design
The EZ Link's thoughtful design allows for efficient, accurate and dependable installation.

Mid-Install　　　　　　**Full-Install**
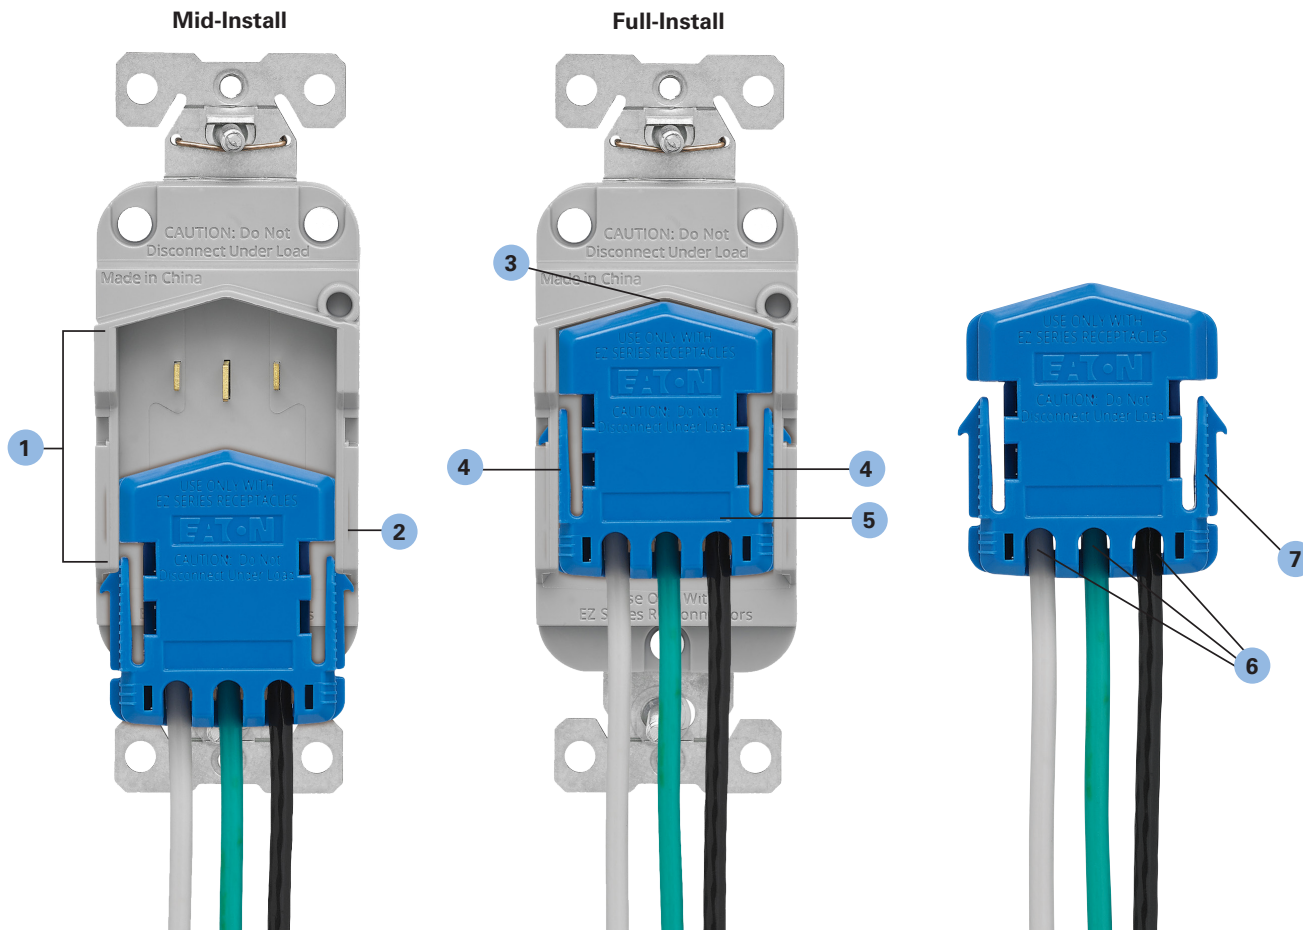

Features & Benefits

1. **Sliding Installation**
Unique sliding design allows the connector to simply slide into place faster and easier.

2. **Guide Rails**
Provide accurate and secure alignment during installation.

3. **Arrow Design**
The design easily identifies the direction to slide in the connector, providing safety against incorrect installation.

4. **Release Wings**
Wings provide an easy, one-hand release of the device, while providing two points of capture for connection retention.

5. **Easy Labeling**
A dedicated labeling area adds convenience for special labeling needs.

6. **Wire Relief Slots**
Allow sharp bending to make it easier to push all the wires back into the box during final installation.

7. **Gripping Ridges**
Tactile design incorporated into the connector provides a secure grip for the installers.

EZ LINK

Heavy-duty duplex & decorator receptacles

Product description
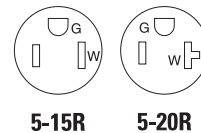

2-pole, 3-wire grounding
15A, 125 V/AC
20A, 125 V/AC

5-15R   **5-20R**

Design features

- Intuitive arrow-shaped mating design and slim profile allows for rapid installation during trim-out
- Connectors slide and lock into place on back of device, guided by precision rails and custom engineered wings resulting in unmatched connector retention
- Discrete connector designs prevent incorrect installations

Heavy-duty single pole 3-way switches

Product description
Single pole, 3-way
15A & 20A, 120/277 V/AC

Design features

- Intuitive arrow-shaped mating design and slim profile allows for rapid installation during trim-out

- 120/277 V/AC rating ideal for fluorescent lighting fixtures typical in commercial applications

- Color-coded faces identify amperage: blue=15 amp, red=20 amp

- Connectors slide and lock into place on back of device, guided by precision rails and custom engineered wings resulting in unmatched connector retention

- Discrete connector designs prevent incorrect installations

EZ Link switch & receptacle connectors

Product description
Receptacle Connector:
2-pole, 3wire, 20A, 125 V/AC (blue)
Switch Connectors:
Single pole, 3-wire, 20A, 125 V/AC (yellow)
3-way, 4-wire, 20A, 125 V/AC (yellow)

Design features

- Intuitive arrow-shaped mating design and slim profile allows for rapid installation during trim-out
- Discrete connector designs prevent incorrect installations

- Connector wire relief shapes allow sharp wire bending to provide wire location flexibility within the wallbox
- Flexible release arms allow an easy one-hand release operation while providing two points of capture to stay attached to device
