

Locking device solutions specifically for data center environments

Arrow Hart

Powering Business Worldwide

Data Center locking devices specifically designed for power consumption preservation.

Features & benefits

- Energy saving configurations that use 240V or 240/415V for line to neutral connections
- Amperage/voltage and configuration clearly marked on the device for easy identification of device capabilities
- Terminal body assembly screws backed out for fast wiring and assembly
- Tri-combo screws to facilitate use of a wide variety of tools to assist with more rapid assembly
- Double dove tail provides for superior cord alignment and retention
- Longer bosses on cord grip allow for excellent clamp force on large diameter cords ensuring tight connections
- Dust shield is made of durable neoprene to keep foreign particles of entering the cord chamber
- Configurations come with an isolated ground option for added grounding protection from miscellaneous line interference
