

Release Notes: HFX Service Tool

Version 1.4.0

HFX Service Tool V1.4.0 is a new release package of the HFX Service Tool. This allows the user to install the Service Tool without requiring Pro-FX Control® or the full HFX Support Package

Installation

Run the installer (SetupHFXServiceTool.exe) and accept all prompts during the installation process.

Admin access is required to install this program..

Updates

- Support for connecting to HFX with service even when multiple HFXs are on the same CAN bus
- CODESYS Retain variables are reset when new firmware is downloaded via service tool

Known Issues

- ETN00025863: Uninstalling the HFX Service Tool removes the launcher, even if it is still needed by Pro-FX Control or Pro-FX Configure.
- ETN00025864: Installing over Pro-FX Configure will sometimes give a nuisance warning that 'launcher.ini' is read-only. Hit 'Retry' to continue the installation.
- ETN00034816: HFX Service Tool icon opening with Password dialog box clicking on ok will open the HFX Service Tool
