Delivering performance when it matters most.

As a pioneer in the production of hoses used in demanding conditions, Eaton is pleased to announce two new additions to our family of hoses; Eaton Winner™ PTFE EN-TW and EC-TW PTFE hoses. Since 1961, Eaton’s Everflex hoses have been the premier choice for hose products made from premium grade Teflon™ fluoropolymer resin for use in truck, chemical, hot melt, steam, packaging, paint, machinery and many other demanding applications. These new Eaton Winner PTFE hoses compliment the Everflex family of products by providing performance that meets SAE 100R14 and are ideally suited for use in applications where high and low temperature, chemical resistance, low coefficient of friction, flexibility, and non-aging characteristics are required.

**Applications**
- Alternative fuels
- Bus, truck and off highway
- Chemical transfer
- Electric cooling
- Engine
- Fire/rescue air
- Hot press
- Paint & paint spraying
- Steam

**Compliance**
- SAE 100R14-A & B
- SAE J517

**Benefits**
- Excellent temperature resistance
- Broad range of chemical resistance
- Withstands continuous flexing/vibration/impulsing
- High flow rates, with low coefficient of friction

Eaton Winner PTFE EN-TW and EC-TW hoses

Introducing a new standard in PTFE hoses
Rely on Eaton’s PTFE hoses when other hoses can’t do the job!

- Meets and exceeds SAE 100R14-A & B and SAE J517 specifications
- Available in both non-conductive and conductive constructions
- Meets SAE 100R14 temperature ratings: -54°C to +236°C continuous
- Available with 304 stainless steel, outer braid, wire

New Eaton EN-TW
Reduced, smooth bore PTFE hose
Non-conductive (non-dissipating) PTFE hose

Winner PTFE is qualified with the following fittings:

- E-Series crimp fittings
- FC series (Aeroquip) crimp fittings
- Field Attachable, where available
  (with reduced working pressure)
